

**INDEPENDENT AUDITOR'S EXAMINATION REPORT ON RESTATED CONSOLIDATED
FINANCIAL INFORMATION**

The Board of Directors
Integrum Energy Infrastructure Limited
(Formerly known as "Integrum Energy Infrastructure Private limited")
736, 2nd Floor, Third Block,
Koramangala, Bangalore,
Karnataka-560034, India

Dear Sirs,

1. The Company proposes to make an initial public offering of its equity shares of face value of Re. 2 each, which comprises of fresh issue of equity shares and an offer for sale by certain existing shareholders of the Company at such premium arrived at by the book building process (referred to as the "Offer"), as may be decided by the Company's Board of Directors.
2. We, Singhi & Co., Chartered Accountants ("we" or "us" or "Singhi"), have examined, the restated consolidated financial information of Integrum Energy Infrastructure Limited (the "Company" or the "Issuer") and its subsidiaries (the Company and its subsidiaries are collectively referred to as the "Group"), comprising the Restated Consolidated Statement of Assets and Liabilities as at March 31, 2026, March 31, 2025 and March 31, 2024, the Restated Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Restated Consolidated Statement of Changes in Equity and the Restated Consolidated Statement of Cash Flows for the years ended March 31, 2026, March 31, 2025 and March 31, 2024 and the summary statement of material accounting policies, notes and other explanatory information (collectively, the "Restated Consolidated Financial Information"), as approved by the Board of Directors of the Company at their meeting held on September 17, 2026 for the purpose of inclusion in the Draft Red Herring Prospectus ("DRHP"), prepared by the Company in connection with the Offer prepared in terms of the requirements of:
 - a. section 26 of Part I of Chapter III of the Companies Act 2013 (the "Act");
 - b. relevant provisions of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the "ICDR Regulations"); and
 - c. the Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India ("ICAI"), as amended from time to time (the "Guidance Note")

Management's Responsibility for the Restated Consolidated Financial Information

3. The Company's Board of Directors is responsible for the preparation of the Restated Consolidated Financial Information which have been approved by them for the purpose of inclusion in the DRHP to be filed with Securities and Exchange Board of India (the "SEBI"), BSE Limited and National Stock Exchange of India Limited ("NSE") (collectively, with BSE Limited, the "Stock Exchanges") in connection with the Offer. The Restated Consolidated Financial Information have been prepared by the management of the Company on the basis of preparation stated in Note 1 to the Restated Consolidated Financial Information. The responsibility of the respective Board of Directors of the companies included in the Group includes designing, implementing and maintaining adequate internal control relevant to the preparation and presentation of the respective restated financial information, which have been used for the purpose of preparation of these Restated Consolidated Financial Information by the management of the Company, as aforesaid. The respective Board of Directors are also responsible for identifying and ensuring that the Company/Group complies with the Act, ICDR Regulations and the Guidance Note, as applicable.

Auditors' Responsibilities

4. We have examined these Restated Consolidated Financial Information taking into consideration:
- the terms of reference and terms of our engagement agreed upon with you in accordance with our engagement letter dated August 29, 2026 in connection with the Offer
 - The Guidance Note also requires that we comply with the ethical requirements of the Code of Ethics issued by the ICAI;
 - Concepts of test checks and materiality to obtain reasonable assurance based on verification of evidence supporting the Restated Consolidated Financial Information; and
 - the requirements of Section 26 of the Act and the ICDR Regulations.

Our work was performed solely to assist you in meeting your responsibilities in relation to your compliance with the Act, the ICDR Regulations and the Guidance Note in connection with the Offer.

Restated Consolidated Financial Information

5. The Restated Consolidated Financial Information have been prepared by the management from:
- the audited consolidated financial statements of the Group as at and for the financial year ended March 31, 2026 prepared in accordance with the accounting principles generally accepted in India including Indian Accounting Standards (referred to as "Ind AS") specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India which have been approved by the Board of Directors at their meeting held on July 22, 2026 ;
 - the audited special purpose consolidated financial statements of the Group as at and for the financial years ended March 31, 2025 and March 31, 2024 prepared in accordance with the Ind AS specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India which have been approved by the Board of Directors at their meeting held on September 17, 2026 ("Special Purpose Consolidated Financial Statements"). The Special Purpose Consolidated Financial Statements are prepared on the basis as described in Note 1 to the Restated Consolidated Financial Information, which have been approved by the Board of Directors at their meeting held on September 17, 2026;
 - The Special Purpose Consolidated Financial Statements referred to in para 5(b) above have been prepared after making suitable adjustments to the accounting heads from their Indian GAAP values following accounting policies and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101 consistent with that used at the date of transition to Ind AS (April 1, 2023) and as per the presentation, accounting policies and grouping/classifications including Revised Schedule III disclosures followed as at and for the year ended March 31, 2026, in accordance with Ind AS.

6. For the purpose of our examination, we have relied:
- on auditors' report issued by us, dated July 22, 2026, on the Audited Consolidated Financial Statements of the Company as at and for the financial year ended March 31, 2026 as referred in paragraph 5(a) above.
 - on auditors' report issued by us, dated September 17, 2026 on the Special Purpose Consolidated Financial Statements of the Company as at and for each of the financial years ended March 31, 2025 and March 31, 2024.
7. Based on our examination and according to the information and explanations given to us, we report that the Restated Consolidated Financial Information:
- have been prepared after incorporating adjustments for the changes in accounting policies, material errors and regrouping/reclassifications retrospectively in the financial years ended March 31, 2025 and March 31, 2024 to reflect the same accounting treatment as per the accounting policies and grouping/classifications followed as at and for the year ended March 31, 2026, as more fully described in Annexure V to the Restated Consolidated Financial Information (Restated Statement of Adjustments to Audited Financial Statements);
 - there are no qualifications in the auditor's report issued on the audited consolidated financial statements of the Company as at and for the years ended March 31, 2026 and on the special purpose audited consolidated financial statements of the Group as at and for the financial years ended March 31, 2025 and March 31, 2024, which require any adjustments to the Restated Consolidated Financial Information; and
 - have been prepared in accordance with the Act, ICDR Regulations and the Guidance Note, as applicable.
8. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.
9. The Restated Consolidated Financial Information do not reflect the effects of events that occurred subsequent to the respective dates of the reports on the audited consolidated financial information mentioned in paragraph 5 above.
10. This report should not in any way be construed as a reissuance or re-dating of any of the previous audit reports issued by us, nor should this report be construed as a new opinion on any of the financial statements referred to herein.
11. We have no responsibility to update our report for events and circumstances occurring after the date of the report.

12. Our report is intended solely for use of the Board of Directors for inclusion in the DRHP to be filed with Securities and Exchange Board of India, Stock Exchanges in connection with the Offer. Our report should not be used, referred to, or distributed for any other purpose except with our prior consent in writing. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing.

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

1. Company Overview

Integrum Energy Infrastructure Limited ('the company') (Formerly known as Integrum Energy Infrastructure Private Limited) bearing Corporate Identification number (CIN) - U40106KA2021PLC144691 was incorporated on 26th February 2021. The Company is incorporated to carry on the business of seller, importer, exporters, suppliers and dealers of all kinds of power generation equipment's including Wind Mills and Turbines, Solar Modules and Panels, to promote, own, acquire, erect, construct, establish, maintain, improve, manage, operate, alter, carry on control, take on hire/lease power plants, co-generation power plants, energy conservation projects, power houses, transmission and distribution systems and supply of electrical power and energy, provide general management consultancy, project management consultancy, technical consultancy and liaison services for power generation, transmission and distribution businesses/projects, provide Engineering, Procurement & Construction (EPC) & Commissioning services for balance of plant associated with power projects and also to provide O&M (Operation and Maintenance Services) for power plants, transmission lines and sub-stations.

Restated Material Accounting Policy Information:

(i) Basis of Preparation and Presentation:

The Restated Consolidated Financial Information of the Group comprises of Restated Consolidated Statement of Assets and Liabilities as at 31 March 2026, 31 March 2025 and 31 March 2024, the Restated Consolidated Statement of Profit and Loss (including Other Comprehensive Income/ Loss), Restated Consolidated Statement of Changes in Equity and the Restated Consolidated Statement of Cash Flows for each of the years ended 31 March 2026, 31 March 2025 and 31 March 2024 and the notes, comprising of material accounting policies ('hereinafter collectively referred to as Restated Consolidated Financial Information').

The Restated Consolidated Financial Information of the Group have been prepared in accordance with Indian Accounting Standards (IndAS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Restated Consolidated Financial Information. As these are Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS), Ind AS 101, First Time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 53.

These Restated Consolidated Financial Information have been prepared by the management for the purpose of inclusion in the Draft Red Herring Prospectus ('DRHP') in connection with the proposed initial public offering of equity shares of face value of INR 2 each of the Company (the "Offer"), in terms of the requirements of:

- (i) Section 26 of Part I of Chapter III of the Companies Act, 2013 (the "Act");
- (ii) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, issued by the Securities and Exchange Board of India ('SEBI') as amended, from time to time in pursuance of the Securities and Exchange Board of India Act, 1992; and
- (iii) The Guidance Note on Reports in Company Prospectuses (Revised 2019) issued by the Institute of Chartered Accountants of India (ICAI) as amended (the "Guidance Note").

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

The Restated Consolidated Financial Information have been compiled from:

Audited consolidated financial statements of the Group as at and for the year ended 31 March 2026 and Special Purpose Financials for the year ended 31 March 2025 and 31 March 2024 prepared in accordance with Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India, along with the presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind-AS compliant Schedule III), as applicable which was approved by the Board of Directors at their meetings held on 22 July 2026, 17 September 2026 and 17 September 2026 respectively.

For the purpose of the Special Purpose Consolidated Financial Statements for the year ended March 31, 2025, and March 31, 2024, of the Group, the transition date is considered as April 01, 2023, which is different from the transition date adopted by the Group at the time of first time transition to Ind AS (i.e. April 01, 2024) for the purpose of preparation of the Statutory Consolidated Financial Statements as required under the Act. Accordingly, the Group has applied the same accounting policy and accounting policy choices (both mandatory exceptions and optional exemptions availed as per Ind AS 101, as applicable) as on April 01, 2023, for the Special Purpose Consolidated Financial Statements, as initially adopted on transition date i.e. April 01, 2024.

The Special Purpose Consolidated Financial Statements have been prepared solely for the purpose of preparation of Restated Consolidated Financial Information for inclusion in offer documents in relation to the proposed IPO, which requires financial statements of all the periods included, to be presented under Ind AS. As such, these Special Purpose Consolidated Financial Statements are not suitable for any other purpose other than for the purpose of preparation of the Restated Consolidated Financial Information and are also not financial statements prepared pursuant to any requirements under Section 129 of the Act.

(ii) Basis for Consolidation

The Restated Consolidated Financial Information incorporate the financial statements of the Group and entities controlled by the Company and its subsidiaries.

Subsidiaries	Shareholding %
Integrum Green Assets Private Limited	74.00%
Integrum Energy Services Private Limited	99.99%
Integrum Green Homes Private Limited	99.99%

Control is achieved where the Company:

- a) has power over the investee
- b) is exposed to, or has rights, to variable returns from its involvement with the investee; and
- c) has the ability to use its power to affect its returns

The Company reassess whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

Consolidation procedure:

(a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

(b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

(c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Subsidiary

a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.

b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.

c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

The Consolidated Financial information of the Group includes subsidiaries as stated in financial statements.

Non-Controlling Interest

Non-controlling interest ("NCI") represents the equity in subsidiaries not attributable to the Holding Company.

NCI is measured at its proportionate share of the subsidiary's net identifiable assets at the acquisition date. Subsequently, profit or loss and each component of other comprehensive income are attributed to the owners of the Holding Company and to NCI, even if this results in a deficit balance for NCI.

NCI is presented within equity in the consolidated Statement of Assets and Liabilities.

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

(iii) Current and non-current classification

The Company presents assets and liabilities in the Statement of Assets and Liabilities based on current / non-current classification.

An asset is treated as current when it is:

- expected to be realised or intended to be sold or consumed in normal operating cycle,
- held primarily for the purpose of trading,
- expected to be realised within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when it is:

- it is expected to be settled in normal operating cycle,
- it is held primarily for the purpose of trading,
- it is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

The Company has identified twelve months as its operating cycle.

(iv) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Basis of measurement
Certain financial assets and liabilities	Fair value
Net defined benefit liability/asset	Present value of defined benefit obligation less fair value of plan asset

(v) Use of estimates and judgements

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the related disclosures. Actual results may differ from these estimates.

Significant management judgements:

- **Recognition of deferred tax assets** – The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.
- **Business model assessment** – The Company determines the business model at a level that reflects how groups of financial assets are managed together to achieve a business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and accordingly prospective change to the classification of those assets are made.

- **Evaluation of indicators for impairment of assets** – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.
- **Classification of leases** – Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contract.
- **Expected credit loss (ECL)** – The measurement of expected credit loss allowance for financial assets measured at amortised cost requires use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g., likelihood of customers defaulting and resulting losses). The Company makes significant judgements regarding the following while assessing expected credit loss:
 - Determining criteria for significant increase in credit risk
 - Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL
 - Establishing groups of similar financial assets for the purposes of measuring ECL.
- **Provisions** – At each Statement of Assets and Liabilities date, based on the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

Significant estimates:

- **Useful lives of depreciable/amortisable assets** – Management reviews its estimate of useful lives, residual values, and method of depreciation of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.
- **Defined benefit obligation (DBO)** – Management's estimate of the DBO is based on several underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.
- **Fair value measurements** – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

2 Summary of significant accounting policies

(i) Revenue Recognition

Revenue from contracts with customers is recognised when a performance obligation is satisfied by transfer of promised goods or services to customer. For performance obligation satisfied over time, the revenue recognition is done using input method by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation as it best depicts the transfer of control that occurs as costs are incurred. The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognises revenue over a period of time if one of the following criteria is met: (a) the customer simultaneously consumes the benefit of the Company's performance or (b) the customer controls the asset as it is being created/ enhanced by the Company's performance or (c) there is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents, In all other cases, performance obligation is considered as satisfied at a point in time

Revenue from construction/project related activity is recognized as follows:

Fixed price contracts: Contract revenue is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs. With respect to contracts, where the outcome of the performance obligation cannot be reasonably measured, but the costs incurred towards satisfaction of performance obligation are expected to be recovered, the revenue is recognised only to the extent of costs incurred.

The revenue is recognised to the extent of transaction price allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party.

The Company includes variable consideration (including estimates amounts of claims) as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when its recovery is highly probable and that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved. Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in profit or loss immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract and costs incurred to fulfil a contract which are expected to be recovered are amortised over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Costs relating to OEM/vendor support for free Operation & Maintenance obligations

Where the Company procures equipment (e.g. wind turbines) from Original Equipment Manufacturers (OEMs) under an arrangement that bundles, for a single price, (a) the supply of the equipment and (b) the OEM's commitment to provide O&M support during the free O&M period that the Company itself is contractually obliged to provide to its customer, the Company assesses whether the OEM arrangement contains consideration for the O&M support that is separately identifiable or reliably estimable (for example, by reference to the OEM's stated/quoted O&M price, or its standalone O&M pricing for comparable equipment).

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

Where separately identifiable/estimable: the composite OEM price is bifurcated into (i) the cost of the equipment, accounted for under Ind AS 2 as a cost of the EPC scope and expensed/consumed as construction progresses, measured under the percentage-of-completion method; and (ii) the cost attributable to the OEM's O&M support, recognised as a cost to fulfil the Company's free O&M performance obligation under Ind AS 115.95, and amortised to profit or loss on a systematic basis consistent with the transfer pattern of the related O&M services (ordinarily straight-line over the free O&M period, consistent with the related O&M revenue) per Ind AS 115.99. This amount is determined by reference to the OEM's own pricing/fair value of the O&M support — **not** by applying the Company's own sell-side transaction-price allocation ratio.

Where not separately identifiable/estimable: i.e. the O&M support is a genuinely cost-free adjunct to the equipment supply — no portion of the vendor cost is attributed to O&M, and the entire vendor cost remains an EPC cost under Ind AS 2.

Where the EPC performance obligation is measured using the cost-to-cost input method, any O&M-attributable portion of the OEM cost (where bifurcated) is excluded from both costs incurred to-date and total estimated costs used to measure percentage of completion, since such costs do not depict performance of the EPC obligation.

The Company reviews the carrying amount of the deferred O&M-fulfilment cost asset at each reporting date and recognises an impairment in profit or loss to the extent it exceeds the remaining consideration expected to be received (net of remaining directly related costs) for the O&M services, per Ind AS 115.101.

Significant judgments are used in: a. Determining the revenue to be recognised in case of performance obligation satisfied over a period of time; revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation b. In estimation of total revenue and cost at completion considering the nature of work required to be performed on many of the performance obligation are complex and are subject to many variables c. Determining the expected losses, which are recognised in the period in which such losses become probable based on the expected total contract cost as at the reporting date. d. Determining the method to be applied to arrive at the variable consideration including variations and claims requiring an adjustment to the transaction price. Variable consideration is recognised when the recovery of such consideration is highly probable. The recognition and estimates of variable consideration including claims are based on Management's assessment of contractual tenability of the claims/variations, discussions/negotiations with the customers, and legal opinion where required. determining whether OEM/vendor arrangements contain separately identifiable consideration for O&M support, and the basis on which such consideration is estimated for cost-bifurcation purposes.

Due to the nature of business of the Company, determining the revenue, measurement of progress, expected losses as mentioned above, is subject to many variables and requires significant judgement. Variability in the transaction price arises primarily due to price variation clauses, liquidated damages, changes in scope, claims etc which could be at various stages of negotiation, discussions, litigation with the customer. Apart from other factors, Company also considers its experience with similar transactions and expectations while recognising and estimating the amount of variable consideration to be considered. For contracts where the aggregate of contract cost incurred to date plus recognised profits (or minus recognised losses as the case may be) exceeds the progress billing, the surplus is shown as contract asset and termed as "Unbilled revenue". For contracts where progress billing exceeds the aggregate of contract costs incurred to-date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as "Excess of billing over revenue". Amounts received before the related work is performed are disclosed in the Statement of Assets and Liabilities as contract liability and termed as "Advances from customer". The amounts billed on customer for work performed and are unconditionally due for payment i.e. only passage of time is

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

required before payment falls due, are disclosed in the Statement of Assets and Liabilities as trade receivables. The amount of retention money held by the customers pending completion of performance milestone is disclosed as part of contract asset and is reclassified as trade receivables when it becomes due for payment. The Company recognises impairment loss (termed as provision for expected credit loss in the financial statements) on account of credit risk in respect of a contract asset using expected credit loss model on similar basis as applicable to trade receivables.

Revenue from rendering of services is recognised over time as the customer receives the benefit of the Company's performance and the Company has an enforceable right to payment for services transferred.

Income from Operations and Maintenance: -

Revenue from Services rendered is recognised when the performance obligation is satisfied as per the terms of agreement.

Operation and maintenance services revenue is recognised in the period in which the services are provided by the Company.

Income from AMF Services

Revenue from Services rendered is recognised when the performance obligation is satisfied as per the terms of agreement. AMF services revenue is recognised as revenue in the period in which the services are provided by the Company.

Other income A. Interest income on investments and loans is accrued on a time basis by reference to the principal outstanding and the effective interest rate including interest on investments classified as fair value through profit or loss or fair value through other comprehensive income. Interest receivable on customer dues is recognised as income in the Statement of Profit and Loss on accrual basis provided there is no uncertainty of realisation. B. Dividend income is accounted in the period in which the right to receive the same is established.

(ii) Employee Benefits

(i) Short term employee benefits: Employee benefits such as salaries, wages, short term compensated absences, bonus, ex-gratia and performance-linked rewards falling due wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the service

(ii) Post-employment benefits: A. Defined contribution plans: The Company's superannuation scheme, state governed provident fund scheme, employee state insurance scheme and employee pension scheme are defined contribution plans. The contribution paid/payable under the schemes is recognized during the period in which the employee renders the service. B. Defined benefit plans: The employees' gratuity fund schemes and employee provident fund schemes managed by board of trustees established by the Company, the post-retirement medical care plan and the company pension plan represent defined benefit plans. The present value of the obligation under defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method. The obligation towards defined benefit plans is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Statement of Assets and Liabilities date. Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognized in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to profit or loss. Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognized in

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

the Statement of Profit and Loss as employee benefits expense. Interest cost implicit in defined benefit employee cost is recognized in the Statement of Profit and Loss under finance costs. Gains or losses on settlement of any defined benefit plan are recognized when the settlement occurs. Past service cost is recognized as expense at the earlier of the plan amendment or curtailment and when the Company recognizes related restructuring costs or termination benefits. In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

(iii) Foreign exchange transactions and translations

Initial recognition:

Foreign currency transactions are recorded in the reporting currency, by applying the foreign currency amount of exchange rate between the reporting currency and foreign currency at the date of transaction.

Conversion:

Foreign currency monetary assets and liabilities outstanding as at Statement of Assets and Liabilities date are restated/translated using the exchange rate prevailing at the reporting date. Non-monetary assets and liabilities which are measured in terms of historical cost denomination in foreign currency, are reported using the exchange rate at the date of transaction except for non-monetary item measured at fair value which are translated using the exchange rates at the date when fair value is determined.

Exchange difference arising on the settlement of monetary items or on restatement of the Company's monetary items at rates different from those at which they initially recorded during the year or reported in previous financials statement (other than those relating to fixed assets and other long term monetary assets) are recognised as income or expenses in the year in which they arise.

(iv) Tax expense

Income tax comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;

Contingent liability

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

Contingent assets

Contingent assets are possible assets that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Commitments

Commitments represent contractual obligations of the Company for future expenditure and are disclosed in the notes to the financial statements, where material, in accordance with the applicable requirements of Ind AS. Such commitments are not recognised as liabilities unless the recognition criteria under the relevant Ind AS are satisfied.

(viii) Securities Premium

Securities premium represents the amount received by the Company in excess of the face value of the equity shares issued. Such premium is recognised as part of "Other Equity" and is utilised only for the purposes permitted under Section 52 of the Companies Act, 2013.

(ix) Property Plant and Equipment

Recognition and measurement

All items of property, plant and equipment are stated at historical cost less depreciation. Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost net of recoverable taxes (wherever applicable), which includes capitalised borrowing costs less depreciation and impairment, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, if any, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in the statement of profit and loss.

On transition to Ind AS, the Company had elected to continue with carrying value of all its property, plant and equipment recognised as at 1 April 2022 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

PPE is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognised in the Statement of Profit and Loss in the same period.

Subsequent expenditure

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced.

All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual values

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value over their useful life using Straight Line and is recognised in the statement of profit and loss.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as under and the same are equal to lives specified as per schedule II of the Act.

The useful lives of the assets are as under:

Particulars	Useful Life (in years)
Tangible assets:	
Land	Not depreciable asset
Furniture and fixtures	6 years
Office equipments	5 years
Vehicles (Two- wheelers)	10 years
Vehicles (Other than two-wheelers)	8 years
Electrical Equipment's	6 years
Computer hardware	3 years
Trademarks & Patents	10 years

Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on addition to property, plant and equipment is provided on pro-rata basis from the date the assets are ready for intended use. Depreciation on sale/discard from property, plant and equipment is provided for up to the date of sale, deduction or discard of property, plant and equipment as the case may be.

Depreciation method, useful lives and residual values are reviewed at each financial year-end, and changes, if any, are accounted for prospectively.

Intangible Assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase / completion is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

Intangible assets under development

Expenditure on development eligible for capitalisation are carried as intangible assets under development where such assets are not yet ready for their intended use. An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Computer Software's & other intangible assets is being depreciated on Written down value method based on the method as prescribed under Schedule II of the Companies Act 2013.

Intangible assets:	Usage Life (In Years)
Software	3,5,10 Years

(x) Leases

As lessor

Leases for which the Company is a lessor classified as finance or operating lease. Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the Statement of Assets and Liabilities based on their nature.

As lessee

The Company's lease asset classes primarily consist of leases for Land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. In case of any advance lease payments adjusted with the lease liability and the Prepaid rent accordingly. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Statement of Assets and Liabilities and lease payments have been classified as financing cash flows.

Leases between group entities are eliminated on consolidation in accordance with Ind AS 110. ROU assets or lease liabilities are not recognized for such internal leases. The underlying PPE is retained at its acquisition-date fair value under Ind AS 103. Any post-acquisition residual arising from mismatches in income and expense recognition is presented under "Other Expenses" per Ind AS 1.

Sub Lease

Recognition — The company acts as an intermediate lessor for leased premises/assets.

Classification basis — sublease classified as finance lease with reference to the ROU asset (not the underlying asset).

Accounting treatment — With Respect to the finance lease: derecognize the ROU asset relating to the head lease, recognize a net investment in the sublease (receivable), recognize any difference between ROU derecognized and net investment recognized in Profit and Loss Account.

Recognition — for finance sub-leases, recognition of finance income over the sublease term.

(xi) Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's or CGU's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

After impairment, depreciation/amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

(xii) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities measured at fair value through profit or loss are recognised immediately in the statement of profit and loss.

Initial recognition and measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at:

- amortised cost,
- Fair value through other comprehensive income (FVOCI), or
- Fair value through profit and loss (FVTPL)

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified to be measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets.
- how the performance of the portfolio is evaluated and reported to the Company's management.
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed.
- how managers of the business are compensated – e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest
For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows.
- terms that may adjust the contractual coupon rate, including variable interest rate features; prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g., non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost: These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses, if any. Interest income and

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in statement of profit and loss.

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest income, are recognised in the statement of profit and loss.

Debts investments at FVOCI: These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On Derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI: These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Financial liabilities: classification, subsequent measurement & gain and loss

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the Statement of Assets and Liabilities when, and only when, the Company currently has a legally enforceable right to set off the amounts, and it intends either to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model.

Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its Statement of Assets and Liabilities but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

Impairment of financial instruments

The Company recognises loss allowances for expected credit losses on: -

- Financial assets measured at amortised cost; and
- Financial assets measured at FVOCI- debt investments

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit - impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer.
- a breach of contract such as a default or being past due for agreed credit period.
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise.
- it is probable that the borrower will enter bankruptcy or another financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Expected credit loss

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than agreed credit period.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is past due and not recovered within agreed credit period.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(xiii) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for events such as bonus issue, share split or consolidation of shares.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed converted into equity shares as at the beginning of the period unless they have been issued at a later date.

(xiv) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

In accordance with Ind AS 108 – Operating Segments, the operating segments used to present segment information are identified based on internal reports used by the Company's Management to allocate resources to the segments and assess their performance.

Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

The operating segments have been identified based on the nature of products/services. Further:

1. Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter-segment revenue.
2. Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result. Expenses which relate to the Company as a whole and not allocable to segments are included under unallocable expenditure.
3. Income which relates to the Company as a whole and not allocable to segments is included in unallocable income.

Integrum Energy Infrastructure Limited
Notes to the Restated Consolidated Financial Statements

4. Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

The Board of Director(s) are collectively the Company's 'Chief Operating Decision Maker' or 'CODM' within the meaning of Ind AS 108.

(xv) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(xvi) Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Company cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

Capital commitments

Capital Commitments (Net of Capital Advances)

Note:-

- (i) As at 31 March 2026, the Company has no outstanding capital commitments in respect of contracts entered into for acquisition of property, plant and equipment or other capital assets.
- (ii) As of 31-03-2025, the Company has started construction and development of a solar power plant for generating and selling electricity. The total estimated capital commitments related to this project that have not been recognized as of the reporting date amount to ₹18.84 Millions.
- (iii) These commitments include obligations for the procurement of solar panels, inverters, construction services, and other equipment necessary for the plant's development. The funding for the commitments is expected to be met through a combination of internal accruals and external financing arrangements.

Total Commitment Value	77.18
Less: Capital Work in Progress as on 31-03-2025	58.34
	<u>18.84</u>

43 Expenditure on CSR activities

As per Section 135 of the Companies Act, 2013, the Company is required to spend, in every financial year, at least two per cent of average net profits of the Company made during the three immediately preceding financial years in accordance with its CSR Policy in respect of activities specified in Schedule VII of the Companies Act, 2013. The details of CSR expenses for the year are as under:

Amount required to be spent by the company during the period
Amount of expenditure incurred
Shortfall/(excess) at the end of the period
Short/(excess) spent in previous year
Short/(excess) spent in previous year
Total excess spent carried forward to subsequent years

Total		
As at March 31, 2026	As at March 31, 2025	As at March 31, 2024
2.61	2.53	2.20
2.72	1.80	3.14

45. Employee benefits

I. Defined contribution plans:

The Company makes contributions, determined as a specified percentage of employee salaries, in respect of qualifying employees towards provident fund and labour welfare fund which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are charged to the statement of profit and loss as they accrue.

Expense under defined contribution plans include:

Employer's contribution to provident fund

Total		
As at March 31, 2026	As at March 31, 2025	As at March 31, 2024
1.19	1.97	1.62
1.19	1.97	1.62

II. Defined benefit plans:

→ Gratuity

→ The Company operates a post-employment defined benefit plan for Gratuity. This plan entitles an employee to receive half month's salary for each year of completed service at the time of retirement/exit.
→ The present value of obligation is determined based on actuarial valuation using the projected unit credit method, which recognize each period of service as giving rise to additional employee benefit entitlement and measures each unit separately to build up the final obligation.
→ The most recent actuarial valuation of the present value of the defined benefit obligation for gratuity were carried out as at March 31, 2026, March 31, 2025 and March 31, 2024. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the projected unit credit method.
→ The Company makes annual contributions to gratuity fund maintained by Life Insurance Corporation of India. The Company has provided gratuity liability (defined benefit plan) as per actuarial valuation carried out by an independent actuary on the Statement of Assets and Liabilities date. From the year 2024, the company has started annual contributions to gratuity fund maintained with LIC.

E. Plan assets

Plan assets comprises of the following:

Total plan assets
Funds managed by insurer
% of Plan assets

Total		
As at March 31, 2026	As at March 31, 2025	As at March 31, 2024
0.38	0.35	-
0.38	0.35	-
100%	100%	-

F. Actuarial assumptions

The principal assumptions are the discount rate and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis. Valuation assumptions are as follows which have been selected by the Company.

Discount rate
Expected rate of future salary increase
Withdrawal Rates
Mortality

Total		
As at March 31, 2026	As at March 31, 2025	As at March 31, 2024
6.40%	6.50%	7.00%
10.00%	10.00%	5.00%
20.00%	20.00%	20.00%
IALM 2012-2014 Ultimate	IALM 2012-2014 Ultimate	IALM 2012-2014 Ultimate

G. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

Total					
As at March 31, 2026		As at March 31, 2025		As at March 31, 2024	
Increase	Decrease	Increase	Decrease	Increase	Decrease
-5.70%	5.53%	-6.09%	6.71%	-6.10%	6.68%
3.97%	-3.85%	5.94%	-5.52%	6.24%	-5.82%
-2.15%	2.21%	-3.56%	3.72%	-3.58%	3.64%

→ Sensitivities due to mortality is not material and hence impact of change is not calculated.

→ Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

Description of Risk Exposures:

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such the Company is exposed to various risks as follows:

a). **Salary increase:** Actual salary increases will increase plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

b). **Investment risk:** If plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

c). **Discount rate:** Reduction in discount rate in subsequent valuations can increase the plan's liability.

d). **Mortality & disability:** Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.

e). **Withdrawals:** Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact the plan's liability.

H. Expected maturity analysis of the defined benefit plans in future years

Duration of defined benefit obligation

Less than 1 year
Between 2-5 years
Beyond 5 years

4.32	1.64	0.56
7.51	2.40	0.78

I. Leave encashment

→ The Company operates a long term employee benefit plan for Privilege Leave benefits. This plan entitles an employee to receive salary for each leave day accumulated till entitlement.

→ The present value of obligation is determined based on actuarial valuation using the projected unit credit method, which recognize each period of service as giving rise to additional employee benefit entitlement and measures each unit separately to build up the final obligation.

→ The most recent actuarial valuation of the present value of the defined benefit obligation for Privilege Leave benefits were carried out as at March 31, 2026; March 31, 2025 and March 31, 2024. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the projected unit credit method.

E. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below:

	As at		Total		As at	
	March 31, 2026		March 31, 2025		March 31, 2024	
	Increase	Decrease	Increase	Decrease	Increase	Decrease
Discount rate (0.05% movement)	3.60%	3.90%	-3.55%	3.83%	-2.94%	3.14%
Future salary growth (0.05% movement)	3.26%	-3.08%	3.20%	-3.03%	2.69%	-2.56%
Withdrawal rate (W.R.) (10.00% movement)	1.31%	1.40%	-1.60%	1.71%	-0.51%	0.54%
Mortality Rate (10.00% movement)	-	-	-	-	-	-

→ Sensitivities due to mortality is not material and hence impact of change is not calculated.

→ Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

Description of Risk Exposures:

Valuations are based on certain assumptions, which are dynamic in nature and vary over time. As such the Company is exposed to various risks as follows:

a). **Salary increase:** Actual salary increases will increase plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

b). **Investment risk:** If plan is funded then assets liabilities mismatch & actual investment return on assets lower than the discount rate assumed at the last valuation date can impact the liability.

c). **Discount rate:** Reduction in discount rate in subsequent valuations can increase the plan's liability.

d). **Mortality & disability:** Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities.

e). **Withdrawals:** Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact the plan's liability.

F. Expected maturity analysis of the defined benefit plans in future years

Duration of defined benefit obligation

Less than 1 year
Between 2-5 years
Beyond 5 Years

(ii) Nature of Security

Secured vehicle loan from NBFC

Two vehicle loans from NBFC is secured by a first charge over the vehicles financed under the loan agreement. The lender holds hypothecation rights over the vehicle until repayment of the loan in full.

Working capital loan from NBFC

The working capital loan from Oxyzo Financial Services Limited is executed with the following security documents:

Demand Promissory Note (DPN);
Letter of Continuity;
Security Cheques;
NACH Mandate; and
Other facility documents executed pursuant to the loan agreement.

The Demand Promissory Note has been executed by the Company (Financed Party) along with the Co-Financed Parties, namely Mr. Anand Lahoti and Mr. Puneet Goel, who have jointly and severally undertaken to pay the outstanding amount together with interest in accordance with the terms of the facility documents.

Term Loan from Bank

- The term loan shall be repayable over a period of 120 months (10 years) in accordance with the repayment schedule provided by the bank.
- The sanctioned loan amount is ₹63 Millions.
- The loan carries an interest rate of approximately 8.25% per annum, as evidenced by the monthly interest amounts in the repayment schedule.
- The repayment consists of monthly instalments comprising both principal and interest, with the principal component increasing over the tenure and the interest component reducing as the outstanding balance decreases.
- In case of prepayment or foreclosure, no prepayment premium is chargeable on both the overdraft and term loan limits.
- The secured term loan from ICICI Bank Limited is secured by an exclusive charge over the Company's movable fixed assets, current assets and fixed deposits, together with corporate guarantee from Integrum Energy Infrastructure Limited and personal guarantees of the promoters.

2. Exempted leases

The Company has recognised - as rent expenses during the year which pertains to short term lease/ low value asset which was not recognised as part of right of use asset of Rs-7.77 Millions (FY 2025-26) & Rs-4.81 Millions (FY 2024-25)

B. Leases as a lessor

1. Finance lease

Leases in which the Company transfers substantially all the risks and rewards incidental to ownership of an asset are classified as finance leases. Amounts due from lessees under finance leases are recognised as receivables at an amount equal to the Company's net investment in the lease. Finance income is recognised over the lease term so as to reflect a constant periodic rate of return on the Company's net investment in the lease. Initial direct costs incurred in negotiating and arranging a finance lease are included in the initial measurement of the net investment in the lease and are recognised as an expense over the lease term as part of the finance income.

Leasing arrangements

Certain investment properties are leased to tenants under long-term finance leases with rental payments.

(i) Amount recognized in the statement of profit and loss

Finance income on the net investment in the lease

Fair value hierarchy

Level 1: It includes financial instruments measured using quoted prices.
Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments.
 The carrying amounts of trade receivables, cash and cash equivalents and other financial assets and liabilities, approximates the fair values, due to their short-term nature. Fair value of financial assets and financial liabilities is similar to the carrying value as there is no significant differences between carrying value and fair value.

Valuation processes

The Management performs the valuations of financial assets and liabilities required for financial reporting purposes on a periodic basis, including level 3 fair values.

Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Currency Risk
- Liquidity risk
- Market risk

(i) Credit risk

The maximum exposure to credit risk is represented by the total carrying amount of these financial assets in the Statement of Assets and Liabilities:

Particulars	Total		
	As on March 31st 2026	As on March 31st 2025	As on March 31st 2024
Trade receivables	1,091.20	562.20	357.35
Investments	158.85	110.08	0.15
Cash and cash equivalents	180.47	69.34	12.38
Bank balances other than cash and cash equivalents	297.12	277.16	84.06
Loans	1.60	0.93	0.20
Other financial assets	10.90	2.58	1.07

→ Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

→ The Company's credit risk is primarily to the amount due from customers and loans. The Company maintains a defined credit policy and monitors the exposure to these credit risks on an ongoing basis. Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with scheduled commercial banks with high credit ratings assigned by domestic credit rating agencies and credit risk on Mutual funds is negligible as these investments are made in schemes managed by reputed Asset Management Companies regulated by the Securities and Exchange Board of India (SEBI).

→ The maximum exposure to the credit risk at the reporting date is primarily from trade receivables. Trade receivables are unsecured and are derived from revenue earned from customers primarily located in India. The Company does monitor the economic environment in which it operates and the Company manages its Credit risk through credit approvals, establishing credit limits and continuously monitoring credit worthiness of customers to which the Company grants credit terms in the normal course of business.

→ On adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade receivable. The management uses a simplified approach (i.e. based on lifetime ECL) for the purpose of impairment loss allowance, the Company estimates amount based on the business environment in which the Company operates, and management considers that the trade receivables are in default (credit impaired) when counter party fails to make payments as per terms of sale/service agreements. However the Company based upon historical experience determine an impairment allowance for loss on receivables.

→ When a trade receivable is credit impaired, it is written off against trade receivables and the amount of the loss is recognized in the income statement. Subsequent recoveries of amounts previously written off are credited to the income statement.

→ The gross carrying amount of trade receivables is disclosed in Note 13

→ The Company believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour.

Movement in the allowance for impairment in respect of trade receivables:

Total	As on	
	March 31st 2026	March 31st 2024
Balance at the beginning	(1.94)	(0.15)
Impairment loss recognized	(2.10)	1.89
Impairment loss utilized	-	-
Balance at the end	(4.05)	(1.94)
		(3.83)

---Continued on next page

...Continued from previous page

(ii) Currency risk

Currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to the effects of fluctuation in the prevailing foreign currency exchange rates on its financial position and cash flows to the extent of earnings and expenses in foreign currencies. Exposure arises primarily due to exchange rate fluctuations between the functional currency and other currencies from the Company's operating, investing and financing activities.

Exposure to foreign currency risk

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities which are not hedged at the end of the reporting period are as follows:

Particulars	Denomination	As at March 31st 2025		As at March 31, 2024	
		Foreign currency	Equivalent ₹ in Millions	Foreign currency	Equivalent ₹ in Millions
Payables	Euros	-	-	-	-
Trade payables		(2,000.00)	(0.18)	-	-
Reservables		-	-	-	-
Trade Receivables		-	-	-	-
Unhedged payables/(Receivables)		-	(0.18)	-	-
Net unhedged foreign currency exposure		-	(0.18)	-	-

Foreign currency sensitivity analysis

The following table detail the Company's sensitivity to a 50 bps increase and decrease in the INR (₹) against Euro. 50 bps is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 50 bps change in foreign currency rates. In case of net foreign currency outflow, a positive number below indicates an increase in profit or equity where the ₹ strengthens 50 bps against the relevant currency. For a 50 bps weakening of the ₹ against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be negative. In case of net foreign currency inflow, a positive number below indicates an increase in profit or equity where the ₹ weakens 50 bps against the relevant currency. For a 50 bps strengthening of the ₹ against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be negative.

Particulars	Profit or loss		Equity net of tax	
	50 bps increase	50 bps decrease	50 bps increase	50 bps decrease
Euros	-	-	-	-
For the year ended March 31, 2026	10.00	(10.00)	7.48	(7.48)
For the year ended March 31, 2025	-	-	-	-
For the year ended March 31, 2024	-	-	-	-

(iii) Liquidity risk

→ Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

→ Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's policy is to regularly monitor its liquidity requirements to ensure that it maintains sufficient reserves of cash and funding from Company companies to meet its liquidity requirements in the short and long term.

→ The Company's liquidity management process as monitored by management, includes the following:
- Day to Day funding, managed by monitoring future cash flows to ensure that requirements can be met.
- Maintaining rolling forecasts of the Company's liquidity position on the basis of expected cash flows.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date:

As on March 31st 2026	Carrying amount	Total		
		Less than one year	Between one to five years	More than five years
Borrowings	90.23	9.79	80.43	-

Other financial liabilities	6.55	6.55	-	-	6.55
Total	324.31	324.31	-	-	324.31

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, the Company mainly has exposure to two types of market risk namely: currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(ix).

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk.

Exposure to interest rate risk

The Company's interest rate risk arises majorly from the term loans from banks carrying floating rate of interest. These obligations expose the Company to cash flow interest rate risk. The exposure of the Company's borrowing to interest rate changes as reported to the management at the end of the reporting period are as follows:

Variable-rate instruments

Working capital demand loans from banks
Term Loan from banks
Bills discounted under LC
Bills discounted under TradeS
Total

	As on March 31st 2026	As on March 31st 2025	As on March 31st 2024
	62.41	12.65	-
	-	-	-
	-	-	-
Total	62.41	12.65	-

Cash flow sensitivity analysis for variable-rate instruments

→ The sensitivity analysis below have been determined based on the exposure to interest rates at the end of the reporting period.
→ For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

Working capital demand loans from banks

For the year ended March 31, 2026
For the year ended March 31, 2025

51 Capital management

- For the purpose of the Company's capital management, capital includes issued equity share capital and all other equity reserves attributable to the equity holders of the Company.
- Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.
- To maintain or adjust the capital structure, the Company may return capital to shareholders, raise new debt or issue new shares.
- The Company monitors capital on the basis of the debt to capital ratio, which is calculated as interest-bearing debts divided by total capital (equity attributable to owners of the parent

	Total

53 First time adoption of Ind AS

→ The Company has prepared its first Financial Statements in accordance with Ind AS for the year ended March 31, 2026. For periods up to and including the year ended March 31, 2025, the Company prepared its financial statements in accordance with Indian GAAP, including accounting standards notified under the Companies (Accounting Standards) Rules, 2021 (as amended) ("previous GAAP"). The effective date for Company's Ind AS Opening Statement of Assets and Liabilities is April 01, 2023 (the date of transition to Ind AS).

→ The accounting policies set out in Note 1 & 2 have been applied in preparing the financial statements for the year ended March 31, 2026, the comparative information presented in these financial statements for the year ended March 31, 2026 and in the preparation of an opening Ind AS Statement of Assets and Liabilities at April 1, 2023 (the Company's date of transition). According to Ind AS 101, the first Ind AS Financial Statements must use recognition and measurement principles that are based on standards and interpretations that are effective at March 31, 2026, the date of first-time preparation of Financial Statements according to Ind AS. These accounting principles and measurement principles must be applied retrospectively to the date of transition to Ind AS and for all periods presented within the first Ind AS Financial Statements.

→ Any resulting differences between carrying amounts of assets and liabilities according to Ind AS 101 as of April 1, 2023 compared with those presented in the Indian GAAP Balance Sheet as of 31st March, 2023, were recognized in equity under retained earnings (or, if appropriate, another category of equity) within the Ind AS Statement of Assets and Liabilities.

→ An explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows is set out in the following tables and notes:

A. Exceptions and exemptions availed

In the Ind AS Opening Statement of Assets and Liabilities as at April 1, 2023, the carrying amounts of assets and liabilities from the Indian GAAP as at 31 March 2023 are generally recognized and measured according to Ind AS in effect as on March 31, 2026. For certain individual cases, however, Ind AS 101 provides for mandatory exceptions and optional exemptions to the general principles of retrospective application of Ind AS. The Company has used the following exceptions and exemptions in preparing its Ind AS Opening Statement of Assets and Liabilities:

A.1 Ind AS mandatory exceptions

(i) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 1, 2023 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for impairment of financial assets based on expected credit loss model in accordance with Ind AS at the date of transition as these were not required under previous GAAP.

(ii) Classification and measurement of financial assets & financial Liability

→ Ind AS 101 requires the company to assess classification of financial assets & financial Liability on the basis of facts and circumstances existing as at the date of transition. Further, the standard permits measurement of financial assets accounted on amortised cost basis on fact and circumstances existing as at the date of transition, if prospectively application is impracticable.

→ Accordingly, the Company has determined the classification of financial assets & financial Liability on the basis of facts and circumstances existing as at the date of transition. Measurement of financial assets & financial Liability has been done prospectively except where the same is impracticable.

(iii) Derecognition of financial assets and liabilities

As per Ind AS 101 an entity should apply derecognition requirements in Ind AS 109 prospectively for transaction occurring on or after the date of transition to Ind AS.

(iv) Impairment of financial assets

The Company has applied exception related to impairment of financial assets given in Ind AS 101. It has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial assets were initially recognised and compared that to the credit risk at April 1, 2023.

A.2 Ind AS optional exemptions

(i) Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

(ii) Leases

Para 9 of Ind AS 116 requires an entity to assess whether a contract or arrangement contains a lease at the inception of the contract or arrangement. A first-time adopter may assess whether a contract existing at the date of transition to Ind AS contains a lease by applying Ind AS 116 to those contracts on the basis of facts and circumstances existing at that date.

The Company has measured the right-of-use asset at the date of transition at its carrying amount as if Ind AS 116 had been applied with a modified retrospective approach for assessing the commencement date of the lease and the lease liability is measured at present value of the remaining lease payments since the date of commencement.

(iv) Investments

Ind AS 101 permits a first-time adopter to measure investments in subsidiaries, joint ventures and associates at either cost determined in accordance with Ind AS 27 or deemed cost in its opening Ind AS Statement of Assets and Liabilities. The deemed cost of such an investment shall be its fair value at the entity's date of transition to Ind AS in its standalone financial statements or previous GAAP carrying amount at that date. In case of Investments in Mutual Funds the company elected to opt the same at Fair Value.

Accordingly, the Company has elected to measure all of its investments in Mutual Funds at Fair Value.

Ind AS 101 requires an entity to reconcile equity, total comprehensive income for prior periods. The following tables represent the reconciliation from previous GAAP to Ind AS.

Notes to the Restated Consolidated Financial Information

All amount are in ₹ Millions, unless otherwise stated

F. Notes to first-time adoption:**(a) Leases**

Indian GAAP requires accounting of leases as either operating lease or finance lease. Ind AS 116 requires recognition of right-of-use asset and lease liability for all leases except short term lease and lease of low value assets. Under Indian GAAP, the Company had accounted for its lease as operating lease and recognised lease rent as expense in Statement of Profit & Loss. On transition to Ind AS, the Company has recognised right-of-use assets and lease liabilities. Transition to Ind AS has impacted Statement of Assets and Liabilities and statement of profit and loss as follows:

Impact on Statement of Assets and Liabilities

	As at March 31, 2025	As at March 31, 2024
Right-of-use assets	38.80	-
Lease liabilities	36.19	-

Impact on Statement of profit and loss

	For the Year ended March 31, 2025	For the Year ended March 31, 2024
Depreciation on right-of-use assets	-	-
Finance costs on lease liabilities	(0.40)	-
Reversal of lease rent expenses	(0.66)	-

(b & d) Security deposits

Under previous GAAP, there was no specific guidance on accounting for interest free security deposits. Whereas in Ind AS, the prepaid rent/ expense is measured as the difference between the initial carrying amount of the deposit determined in accordance with Ind AS 109 and the amount of deposit given.

(c) Deferred tax

Indian GAAP requires deferred tax accounting using the income statement approach, which focuses on differences between taxable profits and accounting profits for the period. Ind AS 12 "Income Taxes" requires entities to account for deferred taxes using the Statement of Assets and Liabilities approach, which focuses on temporary differences between the carrying amount of an asset or liability in the Statement of Assets and Liabilities and its tax base. The application of Ind AS 12 approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP.

(e) Other comprehensive income

Under Ind AS, all items of income and expense recognised in a period should be included in profit or loss for the period, unless a standard requires or permits otherwise. Items of income and expense that are not recognised in profit or loss but are shown in the statement of profit and loss as other comprehensive income' includes remeasurements of defined benefit plans and fair value gains or (losses) on FVOCI equity instruments. The concept of other comprehensive income did not exist under previous GAAP.

(f) Remeasurement of defined benefit obligation

Under Ind AS, remeasurements i.e. actuarial gains and losses and the return on plan assets, excluding amounts included in the net interest expense on the net defined benefit liability are recognised in other comprehensive income instead of profit or loss. Under the previous GAAP, these measurements were forming part of the profit or loss for the year.

(e,g) Other equity

Retained earnings have been impacted consequent to the above Ind AS transition adjustments.

(h) Investments

The Company has elected to measure all of its investments in Mutual Funds at Fair value through the Profit and loss (FVTPL) at the year end.

(i) Cash flows statement

The transition from previous GAAP to Ind AS has not had a material impact statement on cash flows except for the reclassifications of various assets and liabilities.

Others**Borrowings - Transaction costs**

Under Previous GAAP, borrowings were recorded at cost and transaction costs were charged to Statement of Profit and Loss as and when incurred. Under Ind AS, transaction cost incurred towards origination of borrowings is required to be deducted from the carrying amount of borrowings on initial recognition. These were no cost are recognised in the Statement of Profit and Loss over the tenure of the borrowing as part of interest expense by applying effective interest rate method.

i)	Trade Receivable Turnover Ratio (in times)	Credit sales / Average trade receivables	8.39	2.56	12.53	227.94%	Due to increase in Credit Sales	-79.58%	Due to increase in year end receivables balances
j)	Trade payables turnover ratio (in times)	Credit purchases / Average trade payables	4.04	1.96	12.50	105.87%	Improvement in payment cycle	-84.30%	Due to increase in year end payables balances
k)	Net capital Turnover Ratio (in times)	Revenue from operations / Average working capital	7.55	3.18	17.26	137.25%	Due to Increase in the Revenue from Operations.	-81.55%	Increase in average working capital

(B). Formulas

- (i) Current Assets=Total Current Assets
- (ii) Current Liabilities=Total Current Liabilities-Current Maturities of Long Term Debt
- (iii) Debt=Long Term & Short Term Borrowings
- (iv) Shareholders's Fund=Total Equity
- (v) Earnings available for debt services= Net Profit after taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc.
- (vi) Repayment of Borrowings + Interest=Current Maturity of Long term Debt + Finance Cost
- (vii) Profit/(loss) after taxes=Profit after Tax
- (viii) Total equity=Total Closing Equity
- (ix) Capital Employed=Total Assets-Current Liabilities
- (x) Earning before interest & tax=Profit before Tax+Finance Cost
- (xi) Net Profit=Net Profit after Taxes
- (xii) Revenue from Operations=Total Revenue from Operations
- (xiii) Cost of Goods Sold=Cost of materials consumed+Changes in inventories of finished goods and work-in-progress
- (xiv) Average Inventory=(Opening Inventory+Closing Inventory)/2
- (xv) Credit Sales=Total Sales
- (xvi) Average Trade receivables=(Opening Trade Receivables+Closing Trade Receivables)/2
- (xvii) Credit purchases=Purchase of Materials
- (xviii) Average Trade Payables=(Opening Trade Payables+Closing Trade Payables)/2
- (xix) Revenue from Operations=Total Revenue from Operations
- (xx) Average working capital=(Opening Working Capital+Closing Working Capital)/2
- (xxi) Working Capital=Current Assets-Current Liabilities

- 58 **Disclosure as per Section 186 of the Companies Act, 2013**
 The details of loans, guarantees and investments under Section 186 of the Companies Act, 2013 read with the Companies (Meetings of Board and its Powers) Rules, 2014 are as follows :
 (i) There are no investments made
 (ii) Details of the loans given by the Company is given in Note 16
 (iii) Corporate guarantee has been given to bank for the term loan & OD facility taken by Integrum Green Assets (Subsidiary) to the amount of Rs. 75 Millions.
- 59 The Company has working capital limit exceeding Rs.50 Millions during the year and the Company has submitted quarterly statement of identified current assets to the bankers, and there are no differences between the amounts as per books and amounts reflected in the statements.
- 60 **Events after reporting date**
 Pursuant to a resolution of the Board dated August 29, 2026, and a special resolution of the Shareholders dated September 02, 2026, each equity share of the Company bearing face value of ₹ 10 was sub-divided into 5 Equity Shares bearing face value of ₹ 2 each. Accordingly, the then issued, subscribed and paid-up equity share capital of the Company consisting of 1,64,96,534 Equity Shares of ₹ 10 each were split into 8,24,82,670 Equity Shares of ₹ 2 each.
- 61 The Company does not have any transactions with companies struck-off under Section 248 of the Companies Act, 2013 or Section 560 of the Companies Act, 1956.
- 62 The Company does not have any immovable property (other than properties where the Company is a lessee and the lease agreements are duly executed in the favour of the lessee) whose title deeds are not held in the name of the Company.
- 63 The Company does not have any Benami property, where any proceeding has been initiated or pending against the Company for holding any Benami property.
- 64 The Company has not traded or invested in Crypto currency or Virtual Currency during the financial year.
- 65 The Company have not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall
 (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or
 (b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- 66 The Company have not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall
 (a) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (Ultimate Beneficiaries) or
 (b) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- 67 The Company does not have any charges or satisfaction which is yet to be registered with Registrar of Companies ("ROC") beyond the statutory period.
- 68 The Company has not done any such transaction which is not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (such as, search or survey or any other relevant provisions of the Income Tax Act, 1961).
- 69 The Company has not been declared a wilful defaulter by any bank or financial institutions or other lender in accordance with the guidelines on wilful defaulters issued by the Reserve Bank of India.
- 70 The Ministry of Corporate Affairs (MCA) has prescribed a new requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled. However, as FY 2023-24 was the first year of implementation of the audit trail requirement, the Company faced various operational and technical challenges in implementing the same. Accordingly, the audit trail feature was not enabled throughout FY 2023-24 and was enabled only during the later part of the year. The Company has subsequently ensured that the audit trail feature is fully enabled and operational throughout FY 2024-25 and FY 2025-26.
- 71 These financial statements were approved for issue by the Board of Directors on September 17th 2026.
- 72 Pursuant to the notification issued by the Ministry of Corporate Affairs dated March 24, 2021, in respect of changes incorporated in Schedule III of the Companies Act, 2013, the figures for the corresponding previous periods/year have been regrouped/reclassified wherever necessary to make them comparable.

Part B :Material Regrouping

Appropriate re-groupings have been made in the restated consolidated summary statement of assets and liabilities, restated consolidated summary statement of profit and loss and restated consolidated summary statement of cash flows, wherever required, by reclassification of the corresponding items of income, expenses, assets, liabilities and cash flows, in order to bring them in line with the accounting policies and classification as per the financial information of the Group for the year ended 31 March 2026 prepared in accordance with amended Schedule III of Companies Act, 2013, requirements of Ind AS 1 and other applicable Ind AS principles and the requirements of the Securities and Exchange Board of India (Issue of Capital & Disclosure Requirements) Regulations, 2018, as amended.

Part C :Non Adjusting Events

a) Audit qualifications for the respective years, which do not require any adjustments in the Restated Consolidated Summary Statements are as follows:

There are no audit qualification in the auditor's report for each of the year ended 31 March 2026, 31 March 2025 and 31 March 2024.

b) Modification in Other Legal and Regulatory Requirements included in the auditor's report which do not require any corrective adjustments in the Restated Consolidated Statements are as follows:

Integrum Energy Infrastructure Limited

For the year ended 31 March 2026

Clause 2(A)(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of the books of account and other relevant books and papers maintained in electronic mode in the accounting software has not been taken on a daily basis, whereas the backup in respect of the payroll application used by Holding Company has been maintained on a daily basis, and for the matters stated in paragraph 2(f) below of the Companies (Audit and Auditors) Rules, 2014.

Clause 2(B)(j) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account and a separate application for maintaining its payroll records for the financial year ended March 31, 2026, both of which have a feature of recording audit trail (edit log) facility, and the same has operated throughout the year for all relevant transactions recorded in the software. During the course of our audit, we did not come across any instance of the audit trail feature being tampered with.

Further, in respect of the preservation of the audit trail as per the statutory requirements for record retention, we report that the audit trail relating to the accounting software is available only with effect from January 31, 2024 (the audit trail feature not having been enabled in the software version used earlier) and not for the period from April 1, 2023 to January 30, 2024.

For the year ended 31 March 2025

Clause 2(A)(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of books of accounts and other relevant books and papers in electronic mode is not been taken on a daily basis and for the matters stated in the paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

Clause 2(B)(f) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software, except that the audit trail feature of Software not used by the Company for certain transactions to maintain accounting records respectively did not operate throughout the year. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company, as per the statutory requirements for record retention from November 01, 2023, except for the above said transactions.

For the year ended 31 March 2024

Clause 2(A)(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of books of accounts and other relevant books and papers in electronic mode is not been taken on a daily basis and for the matters stated in the paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

Clause 2(B)(f) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination which included test checks, the Company has not updated its accounting software which has a feature of recording audit trail (edit log) facility as described in Note No. 70 to the Standalone Financial Statements.

Integrum Green Assets Private Limited

For the year ended 31 March 2025

Clause 2(A)(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of the books of account and other relevant books and papers maintained in electronic mode in the accounting software has not been taken on a daily basis, and for the matters stated in the paragraph 2(i) below of the Companies (Audit and Auditors) Rules, 2014.

Clause 2(B)(j) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated for all relevant transactions recorded in the software. However, we report that the audit trail at the application level was not configured to capture the identity of the user making the changes up to July 9, 2025 and became effective only with effect from July 10, 2025. During the course of our audit, we did not come across any instance of the audit trail feature being tampered with.

Further, the audit trail has been preserved and made available only with effect from November 29, 2024, and accordingly was not maintained for the entire period required under the statute.

For the year ended 31 March 2025

Clause 2(A)(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of books of accounts and other relevant books and papers in electronic mode is not been taken on a daily basis and for the matters stated in the paragraph 2B(f) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

Clause 2(A)(f) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same was operated throughout the year for all relevant transactions recorded in the software, except that the audit trail feature has not captured the User level information. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company, as per the statutory requirements for record retention from April 01, 2024.

For the year ended 31 March 2024

Clause (a) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of books of accounts and other relevant books and papers in electronic mode has not been taken on a daily basis.

Clause (h) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with.

Integrum Energy Services Private Limited

For the year ended 31 March 2025

Clause 2(A)(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of the books of account and other relevant books and papers maintained in electronic mode in the accounting software has not been taken on a daily basis, and for the matters stated in the paragraph 2(i) below of the Companies (Audit and Auditors) Rules, 2014.

Clause 2(B)(j) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility, and the same has operated throughout the year for all relevant transactions recorded in the software. The audit trail feature was configured and enabled at both the application level and the database level, was maintained in the format prescribed by the Ministry of Corporate Affairs, was not editable, and access thereto was appropriately restricted.

During the course of our audit, we did not come across any instance of the audit trail feature being tampered with. Further, as the audit trail logs are available only with effect from 10 April 2025, the audit trail has been preserved by the Company as per the statutory requirements for record retention, except for the period from 1 April 2025 to 9 April 2025 for which audit trail logs were not available.

For the year ended 31 March 2025

Clause 2(A)(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of books of accounts and other relevant books and papers in electronic mode has not been taken on a daily basis.

Clause 2(B)(vi) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination which included test checks, the Company has used an accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company, as per the statutory requirements for record retention.

Integrum Green Homes Private Limited

For the year ended 31 March 2025

Clause 2(b) of Report on Other Legal and Regulatory Requirements of auditor's report:

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for the matters stated in the paragraph 2(j) below of the Companies (Audit and Auditors) Rules, 2014.

Clause 2(j) of Report on Other Legal and Regulatory Requirements of auditor's report:

Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility, and the same has operated throughout the year for all relevant transactions recorded in the software. The audit trail feature was enabled at both the application level and the database level and was maintained. During the course of our audit, we did not come across any instance of the audit trail feature being tampered with, and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

- c) Observations/comments included in the Annexure to the auditor's report issued under Companies (Auditor's Report) Order, 2020, which do not require any adjustments in the Restated Consolidated Statements are as follows:

Integrum Energy Infrastructure Limited

For the year ended 31 March 2026

Clause vii:

(a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Sales-tax, Service Tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other statutory dues applicable to it. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable, except for the following statutory dues:

Name of Statute	Nature of Dues	Period to which the amount relates	Amount Due (Rs.)	Due Date	Date of Payment
Income Tax Act, 1961	TDS	01-06-2021	0.00	07-07-2021	Not Paid
Income Tax Act, 1961	TDS	01-12-2021	0.15	07-01-2022	Not Paid

Employees Provident Fund Act, 1952	PF	01-08-2025	0.00	15-09-2026	Not Paid

(b) According to the information and explanations given to us and the records of the Company examined by us, there are no statutory dues referred to in sub-clause (a) as at March 31, 2026 which have not been deposited on account of a dispute.

Integrum Energy Infrastructure Limited

For the year ended 31 March 2025

Clause vii:

a) The Company does not have liability in respect of Sales Tax, Service Tax, Duty of Excise and Value Added Tax during the year effective July 01, 2017, these statutory dues having been subsumed into GST.

According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax ("GST"), Provident Fund, Employees' State Insurance, Income-Tax, Duty of Customs, Cess and other material statutory dues have generally been regularly deposited by the Company with the appropriate authorities, though there has been slight delay in a few cases.

According to the information and explanations given to us, no undisputed amounts payable in respect of GST, Provident Fund, Employees' State Insurance, Income-Tax, Duty of Customs, Cess and other material statutory dues were in arrears as at March 31, 2025 for a period of more than six months from the date they became payable, except for the below statutory dues:

Name of Statute	Nature of Dues	Period to which the amount relates	Amount Due (Rs.)	Due Date	Date of Payment
Maharashtra GST	RCM Liability	01-03-2023	0.00	20-04-2023	Not paid
Karnataka GST	RCM Liability	01-03-2023	0.01	20-04-2023	Not paid
