

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF INTEGRUM ENERGY SERVICES PRIVATE LIMITED
Report on the Audit of the Standalone Financial Statements**

Opinion

We have audited the accompanying standalone financial statements of Integrum Energy Services Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its profit and other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

- The Company's Management and Board of Directors are responsible for the preparation of the other information. The other information comprises the information included in the Board's Report, but does not include the standalone financial statements and our auditor's report thereon. The Board's Report is expected to be made available to us after the date of this auditor's report.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.
- When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the applicable laws and regulations.

Responsibilities of Management and Board of Directors for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors and management either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is

higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The comparative financial information of the Company for the year ended March 31, 2025 included in these standalone financial statements is based on the previously issued standalone financial statements prepared in accordance with the Accounting Standards specified under Section 133 of the Companies Act, 2013, which were audited by us and on which we expressed an unmodified opinion vide our report dated August 22, 2025. The comparative financial information has been adjusted for the differences in the accounting principles adopted by the Company on its transition to Indian Accounting Standards (Ind AS), and such adjustments have been audited by us. Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, based on our audit we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except that the backup of the books of account and other relevant books and papers maintained in electronic mode in the accounting software has not been taken on a daily basis, and for the matters stated in the paragraph 2(j) below of the Companies (Audit and Auditors) Rules, 2014.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act
 - (e) On the basis of the written representations received from the directors as on March 31, 2026, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
 - (f) With respect to the maintenance of accounts and other matters connected therewith, reference is made to our remarks in paragraph 2(b) above on reporting under Section 143(3)(b) and paragraph 2(j) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended).
 - (g) With respect to the adequacy of the internal financial controls with reference to the standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed that there are no pending litigations on its financial position in its standalone financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

- iv. (a) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 35 to the standalone financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The management has represented that, to the best of its knowledge and belief, as disclosed in Note 36 to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (iv)(a) and (iv)(b) contain any material misstatement.
- (i) No dividend has been declared, authorized, or distributed by the Company in respect of the current financial year.
- (j) Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account, which has a feature of recording audit trail (edit log) facility, and the same has operated throughout the year for all relevant transactions recorded in the software. The audit trail feature was configured and enabled at both the application level and the database level, was maintained in the format prescribed by the Ministry of Corporate Affairs, was not editable, and access thereto was appropriately restricted.

During the course of our audit, we did not come across any instance of the audit trail feature being tampered with. Further, as the audit trail logs are available only with effect from 10 April 2025, the audit trail has been preserved by the Company as per the statutory requirements for record retention, except for the period from 1 April 2025 to 9 April 2025 for which audit trail logs were not available.

- (k) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report to the members of Integrum Energy Services Private Limited of even date)

(i)

a) In respect of the Company's property, plant and equipment:

(A) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any Property, Plant and Equipment as at March 31, 2026. Accordingly, the requirement to report under clause 3(i)(a)(A) of the Order is not applicable to the Company.

(B) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company did not have any Intangible Assets as at March 31, 2026. Accordingly, the requirement to report under clause 3(i)(a)(B) of the Order is not applicable to the Company.

b) According to the information and explanations given to us and based on our examination of the records of the Company, the Company did not have any Property, Plant and Equipment as at March 31, 2026. Accordingly, the requirement to report under clause 3(i)(b) of the Order is not applicable to the Company.

c) There is no immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), held by the Company and accordingly, the requirement to report on clause 3(i)(c) of the Order is not applicable to the Company.

d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2026.

e) Based on the audit procedures performed and the information and explanations provided by the management, no proceedings have been initiated or are pending against the Company under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and the rules made thereunder for holding any benami property. Accordingly, the reporting requirements under Clause 3(i)(e) of the Order are not applicable.

(ii)

a) According to the information and explanations given to us and based on our examination of the records of the Company, the Company did not hold any Inventory as at March 31, 2026. Accordingly, clause (ii)(a) of the Order is not applicable

b) During The year Company has not been sanctioned working capital limits in excess of Rs. 5 crores in aggregate from banks or financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report on clause 3(ii)(b) of the Order is not applicable to the Company.

(iii)

- a) According to the information and explanations given to us and the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, clause 3(iii)(a) of the Order is not applicable.
- b) During the year the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(b) of the Order is not applicable to the Company
- c) The Company has not granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(c) of the Order is not applicable to the Company.
- d) The Company has not granted loans or advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(d) of the Order is not applicable to the Company
- e) There were no loans or advance in the nature of loan granted to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(e) of the Order is not applicable to the Company
- f) The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.

(iv) There are no loans, investments, guarantees, and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable and accordingly, the requirement to report on clause 3(iv) of the Order is not applicable to the Company.

(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

(vi) The Company is not in the business of sale of any goods or provision of such services as prescribed. Accordingly, the requirement to report on clause 3(vi) of the Order is not applicable to the Company.

(vii) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues applicable to it. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company
- (ix)
- a) The Company did not have any outstanding loans or borrowings or interest thereon due to any lender during the year. Accordingly, the requirement to report on clause ix(a) of the Order is not applicable to the Company.
 - b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
 - c) The Company did not have any term loans outstanding during the year hence, the requirement to report on clause (ix)(c) of the Order is not applicable to the Company.
 - d) The Company did not raise any funds during the year hence, the requirement to report on clause (ix)(d) of the Order is not applicable to the Company.
 - e) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) of the Order is not applicable to the Company.
 - f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies. Hence, the requirement to report on clause (ix)(f) of the Order is not applicable to the Company.
- (x)
- a) The Company has not raised any money during the year by way of initial public offer / further public offer (including debt instruments) hence, the requirement to report on clause 3(x)(a) of the Order is not applicable to the Company
 - b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi)
- a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.
 - b) During the year, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed by cost auditor/ secretarial auditor or by us in Form ADT – 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
 - c) The provisions of Section 177(9) and Section 177(10) of the Companies Act, 2013 relating to the establishment of a Vigil Mechanism Whistle Blower Policy are not applicable to the Company, as it is neither a listed company nor a company accepting public deposits, and its borrowings from banks and public financial institutions do not exceed the prescribed threshold
- (xii) The Company is not a nidhi company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3(xii)(a) (b) and (c) of the Order is not applicable to the Company

- (xiii) The Company is a private company and, therefore, is not required to constitute an Audit Committee under Section 177 of the Companies Act, 2013. Further, as explained to us, the Company meets the conditions for exemption from the provisions of Section 188 as per the notification dated 5 June 2015 issued by the Ministry of Corporate Affairs; consequently, Section 188 is not applicable. Accordingly, reporting under clause 3(xiii) of the Order is not applicable to the Company
- (xiv)
- a) The Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Companies Act, 2013. Therefore, the requirement to report under clause 3(xiv)(a) of the Order is not applicable to the Company.
- b) The Company does not have an internal audit system and is not required to have an internal audit system under the provisions of Section 138 of the Companies Act, 2013. Therefore, the requirement to report under clause 3(xiv)(b) of the Order is not applicable to the Company
- (xv) The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the reporting on compliance with the provisions of Section 192 of the Companies Act, 2013 under clause 3(xv) of the Order is not applicable to the Company
- (xvi)
- a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable
- b) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(b) of the Order is not applicable
- c) The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi)(c) of the Order is not applicable to the Company.
- d) There are no other Companies part of the Group, hence, the requirement to report on clause 3(xvi)(d) of the Order is not applicable to the Company
- (xvii) The Company has incurred 1,11,584/- cash losses in the current financial year. The Company incurred cash losses of 1,65,704/- during the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.
- (xix) On the basis of the financial ratios disclosed in **note 30** to the standalone financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and

of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- (xx) In our opinion and according to the information and explanations given to us, there is no unspent amount under sub-section (5) of section 135 of the Companies Act, 2013 pursuant to any project. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.
- xxi) The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements. Accordingly, no comment in respect of the said clause has been included in this report.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(g) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to standalone financial statements of Integrum Energy Services Private Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's and Board of Directors' Responsibilities for Internal Financial Controls

The Company's Management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to financial statements based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements of the Company. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to these financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

1. Company Overview

'Integrum Energy Services Private Limited ('the company) bearing Corporate Identification number (CIN) - U35106KA2024PTC196397 was incorporated on 30th December 2024. The Company is incorporated to carry on the business of seller, importer, exporters, suppliers and dealers of all kinds of power generation equipment's including Wind Mills and Turbines, Solar Modules and Panels, to promote, own, acquire, erect, construct, establish, maintain, improve, manage, operate, alter, carry on control, take on hire/lease power plants, co-generation power plants, energy conservation projects, power houses, transmission and distribution systems and supply of electrical power and energy, provide general management consultancy, project management consultancy, technical consultancy and liaison services for power generation, transmission and distribution businesses/projects, provide Engineering, Procurement & Construction (EPC) & Commissioning services for balance of plant associated with power projects and also to provide O&M (Operation and Maintenance Services) for power plants, transmission lines and sub-stations.

Material Accounting Policy Information:

(i) Statement of compliance with Indian Accounting Standards:

These Ind AS financial statements ("the Financial Statements") have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs ('MCA') under Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act.

As these are Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS), Ind AS 101, First Time Adoption of Indian Accounting Standards has been applied. An explanation of how the transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 30.

The financial statements for the year ended March 31, 2026, were authorised and approved for issue by the Board of Directors on 22nd July, 2026.

The significant accounting policies adopted for preparation and presentation of these financial statements are included in Note 2. These policies have been applied consistently by the Company for all the periods presented in these financial statements.

(ii) Basis of Accounting:

The Company maintains its accounts on accrual and going concern basis following historical cost convention, except for certain assets and liabilities that are measured at fair value in accordance with Ind AS. Fair value measurements are categorised as below based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in level 1, that are observable for the assets or liabilities, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities.

Above levels of fair value hierarchy are applied consistently and generally, there are no transfers between the levels of the fair value hierarchy unless the circumstances change warranting such transfer. Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and accordingly prospective change to the classification of those assets are made.

- **Evaluation of indicators for impairment of assets** – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.
 - **Classification of leases** – Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. After considering current and future economic conditions, the Company has concluded that no changes are required to lease period relating to the existing lease contract.
- **Expected credit loss (ECL)** – The measurement of expected credit loss allowance for financial assets measured at amortised cost requires use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g., likelihood of customers defaulting and resulting losses). The Company makes significant judgements regarding the following while assessing expected credit loss:
 - Determining criteria for significant increase in credit risk
 - Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL
 - Establishing groups of similar financial assets for the purposes of measuring ECL.
- **Provisions** – At each Balance Sheet date, based on the management judgment, changes in facts and legal aspects, the Company assesses the requirement of provisions against the outstanding contingent liabilities. However, the actual future outcome may be different from this judgement.

Significant estimates:

- **Useful lives of depreciable/amortisable assets** – Management reviews its estimate of useful lives, residual values, and method of depreciation of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of assets.
- **Defined benefit obligation (DBO)** – Management's estimate of the DBO is based on several underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.
- **Fair value measurements** – Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

2 Summary of significant accounting policies

(i) Revenue Recognition

The Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognized. The Standard requires apportioning revenue earned from contracts to individual promises, or performance obligations, on a relative stand-alone selling price basis, using a five-step model.

Sale of Power Generating Systems

The Company's contracts with customers for the sale of electricity generated through solar system generally include one performance obligation. The Company has concluded that revenue from sale of electricity, net of discounts, if any, should be recognised at the point in time when electricity is supplied to the customers.

Income from Operations and Maintenance: -

Revenue from Services rendered is recognised when the performance obligation is satisfied as per the terms of agreement.

Operation and maintenance services revenue is recognised in the period in which the services are provided by the Company.

Income from AMF Services

Revenue from Services rendered is recognised when the performance obligation is satisfied as per the terms of agreement. AMF services revenue is recognised as revenue in the period in which the services are provided by the Company.

Contract Assets (Unbilled Revenue)

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the performance obligation is satisfied.

Trade Receivable

A receivable represents the Company's right to an amount of consideration that is unconditional i.e. only the passage of time is required before payment of consideration is due and the amount is billable.

(ii) Employee Benefits

(i) Short term employee benefits: Employee benefits such as salaries, wages, short term compensated absences, bonus, ex-gratia and performance-linked rewards falling due wholly within twelve months of

rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the service

(ii) Post-employment benefits: A. Defined contribution plans: The Company's superannuation scheme, state governed provident fund scheme, employee state insurance scheme and employee pension scheme are defined contribution plans. The contribution paid/payable under the schemes is recognized during the period in which the employee renders the service. B. Defined benefit plans: The employees' gratuity fund schemes and employee provident fund schemes managed by board of trustees established by the Company, the post-retirement medical care plan and the company pension plan represent defined benefit plans. The present value of the obligation under defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method. The obligation towards defined benefit plans is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date. Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognized in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to profit or loss. Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognized in the Statement of Profit and Loss as employee benefits expense. Interest cost implicit in defined benefit employee cost is recognized in the Statement of Profit and Loss under finance costs. Gains or losses on settlement of any defined benefit plan are recognized when the settlement occurs. Past service cost is recognized as expense at the earlier of the plan amendment or curtailment and when the Company recognizes related restructuring costs or termination benefits. In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

(iii) Tax expense

Income tax comprises current and deferred tax. It is recognised in the statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;

- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets – unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

(iv) Inventories

Inventory is valued at lower of cost or net realisable value. The comparison of cost and net realisable value is made on an item by item basis. Cost comprises of all cost of purchase, cost of conversion and other cost incurred in bringing them to their respective present location and condition. Cost is determined using first in, first out method of inventory valuation.

Loose tools and scrap are valued at estimated realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

Provision of obsolescence on inventories is considered on the basis of management's estimate based on demand and market of the inventories.

(v) Cash and Bank Balances

Cash and cash equivalents consist of cash, bank balances in current accounts and short term highly liquid investments that are readily convertible to cash with original maturities of three months or less at the time of purchase and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current financial liabilities in the balance sheet.

(vi) Provisions, contingent liabilities, and contingent assets

Provisions

The Company creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources, and a reliable estimate can be made of the amount of obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent liability

Contingent liabilities are possible obligations that arise from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Where it is not probable that an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the obligation is disclosed as a contingent liability, unless the probability of outflow of economic benefits is remote.

Contingent assets

Contingent assets are possible assets that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Commitments

Commitments represent contractual obligations of the Company for future expenditure and are disclosed in the notes to the financial statements, where material, in accordance with the applicable requirements of Ind AS. Such commitments are not recognised as liabilities unless the recognition criteria under the relevant Ind AS are satisfied.

(vii) Securities Premium

Securities premium represents the amount received by the Company in excess of the face value of the equity shares issued. Such premium is recognised as part of "Other Equity" and is utilised only for the purposes permitted under Section 52 of the Companies Act, 2013.

(viii) Property, plant and equipment

Recognition and measurement

All items of property, plant and equipment are stated at historical cost less depreciation. Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost net of recoverable taxes (wherever applicable), which includes capitalised borrowing costs less depreciation and impairment, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, if any, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment. Any gain or loss on disposal of an item of property, plant and equipment is recognised in the statement of profit and loss.

On transition to Ind AS, the Company had elected to continue with carrying value of all its property, plant and equipment recognised as at 1 April 2022 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

PPE is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition is recognised in the Statement of Profit and Loss in the same period

Depreciation method is reviewed at each financial year end to reflect the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life and residual values are also reviewed at each financial year end and the effect of any change in the estimates of useful life/residual value is accounted on prospective basis.

Subsequent expenditure

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced.

All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

Depreciation methods, estimated useful lives and residual values

(i) Depreciation on Property, Plant and Equipment

Depreciation is provided on the cost of items of property, plant and equipment less their estimated residual value over their estimated useful lives using the Straight-Line Method (SLM) and is recognised in the Statement of Profit and Loss.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as given below and are consistent with the useful lives prescribed under Schedule II to the Companies Act, 2013.

The residual values, useful lives and method of depreciation are reviewed at the end of each reporting period and adjusted prospectively, where considered appropriate.

The useful lives of the assets are as under:

Particulars	Useful life (in years)
Tangible assets:	
Land	Not depreciable asset
Furniture and fixtures	10 years
Plant & Machinery	15 years
Building	
-PSS Control Room	25 years
-Fencing	5 years
- Roads	10 years
Office Equipment	5 years
Vehicles (Two- wheelers)	10 years
Vehicles (Other than two-wheelers)	8 years
Electrical Equipment's	10 years
Computer hardware	3 years

(ii) Intangible assets

Intangible assets are carried at cost less accumulated amortisation and impairment losses, if any. The cost of an intangible asset comprises its purchase price, including any import duties and other taxes (other than those subsequently recoverable from the taxing authorities), and any directly attributable expenditure on making the asset ready for its intended use and net of any trade discounts and rebates. Subsequent expenditure on an intangible asset after its purchase / completion is recognised as an expense when incurred unless it is probable that such expenditure will enable the asset to generate future economic benefits in excess of its originally assessed standards of performance and such expenditure can be measured and attributed to the asset reliably, in which case such expenditure is added to the cost of the asset.

Intangible assets under development

Expenditure on development eligible for capitalisation are carried as intangible assets under development where such assets are not yet ready for their intended use. An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an

intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Computer Software's & other intangible assets is being depreciated on Straight Line Method (SLM) based on the method as prescribed under Schedule II of the Companies Act 2013.

Amortisation on Intangible Assets

Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets. Depreciation on addition to property, plant and equipment is provided on pro-rata basis from the date the assets are ready for intended use. Depreciation on sale/discard from property, plant and equipment is provided for up to the date of sale, deduction or discard of property, plant and equipment as the case may be.

Depreciation method, useful lives and residual values are reviewed at each financial year-end, and changes, if any, are accounted for prospectively.

Intangible assets:	Useful Life (in years)
Software	3 Years

(ix) Leases

As lessor

Leases for which the Company is a lessor classified as finance or operating lease. Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

As lessee

The Company's lease asset classes primarily consist of leases for land. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases. For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less

any lease incentives. In case of any advance lease payments adjusted with the lease liability and the Prepaid rent accordingly. They are subsequently measured at cost less accumulated depreciation and impairment losses.

ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Sub Lease

Recognition — The company acts as an intermediate lessor for leased premises/assets.

Classification basis — sublease classified as finance lease with reference to the ROU asset (not the underlying asset).

Accounting treatment — With Respect to the finance lease: derecognize the ROU asset relating to the head lease, recognize a net investment in the sublease (receivable), recognize any difference between ROU derecognized and net investment recognized in Profit and Loss Account..

Recognition — for finance sub-leases, recognition of finance income over the sublease term.

Net Investment in Sub Lease

At commencement of the sub-lease, the Company recognises a net investment in the sub-lease and derecognises the corresponding portion of the right-of-use asset transferred to the sub-lessee. The net investment is subsequently measured at amortised cost using the effective interest method. Finance income is recognised over the lease term to reflect a constant periodic rate of return. The net investment is subject to the expected credit loss requirements of Ind AS 109. The lease liability relating to the head lease continues to be recognised separately in accordance with Ind AS 116.

(x) Impairment of non-financial assets

The Company's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's or CGU's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a

pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment loss recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

After impairment, depreciation/amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

(xi) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities measured at fair value through profit or loss are recognised immediately in the statement of profit and loss.

Initial recognition and measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at:

- amortised cost,
- Fair value through other comprehensive income (FVOCI), or
- Fair value through profit and loss (FVTPL)

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified to be measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI or at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets.
- how the performance of the portfolio is evaluated and reported to the Company's management.
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g., whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features; prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g., non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract. Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits

or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost: These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses, if any. Interest income and impairment are recognised in the statement of profit and loss. Any gain or loss on derecognition is recognised in statement of profit and loss.

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest income, are recognised in the statement of profit and loss.

Debts investments at FVOCI: These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On Derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investments at FVOCI: These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Financial liabilities: classification, subsequent measurement & gain and loss

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts, and it intends either to settle them on a net basis or to realise the assets and settle the liabilities simultaneously.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model.

Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

Impairment of financial instruments

The Company recognises loss allowances for expected credit losses on: -

- Financial assets measured at amortised cost; and
- Financial assets measured at FVOCI- debt investments

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at FVOCI are credit impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit - impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer.
- a breach of contract such as a default or being past due for agreed credit period.
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise.
- it is probable that the borrower will enter bankruptcy or another financial reorganisation; or
- the disappearance of an active market for a security because of financial difficulties.

Expected credit loss

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than agreed credit period.

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligations to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is past due and not recovered within agreed credit period.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(xii) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period are adjusted for events such as bonus issue, share split or consolidation of shares.

For calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares. The dilutive potential equity shares are deemed converted into equity shares as at the beginning of the period unless they have been issued at a later date.

(xiii) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

In accordance with Ind AS 108 – Operating Segments, the operating segments used to present segment information are identified based on internal reports used by the Company's Management to allocate resources to the segments and assess their performance.

Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries. Inter-segment pricing is determined on an arm's length basis.

The operating segments have been identified based on the nature of products/services. Further:

1. Segment revenue includes sales and other income directly identifiable with / allocable to the segment including inter-segment revenue.

2. Expenses that are directly identifiable with / allocable to segments are considered for determining the segment result. Expenses which relate to the Company as a whole and not allocable to segments are included under unallocable expenditure.
3. Income which relates to the Company as a whole and not allocable to segments is included in unallocable income.
4. Segment assets and liabilities include those directly identifiable with the respective segments. Unallocable assets and liabilities represent the assets and liabilities that relate to the Company as a whole and not allocable to any segment.

The Board of Director(s) are collectively the Company's 'Chief Operating Decision Maker' or 'CODM' within the meaning of Ind AS 108.

(xviii) Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

(xix) Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Company cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

Other equity	As at March 31, 2026	As at March 31, 2025
Retained earnings and Other Comprehensive Income		
Opening balance	-1.66	-
Add/(less): Profit/(loss) for the year	-3.12	-1.66
Add/(less): Adjustments for the year	-	-
Add/(less): Effect on the deferred tax	-	-
Other Comprehensive Income	-	-
Closing balance	-4.77	-1.66

Nature and purpose of other equity:

(i). **Retained earnings**

Retained earnings represents the surplus/ (deficit) in profit and loss account and appropriations.

Items of other comprehensive income

Remeasurement of equity instruments

The Company has elected to recognise changes in the fair value of certain investments in equity securities in other comprehensive income. These changes are accumulated in the FVOCI equity investments reserve. The Company transfers amounts from this reserve to retained earnings when the relevant equity securities are derecognised or sold. Any impairment loss on such instruments is reclassified to the Statement of Profit and Loss.

Remeasurement of defined benefit obligation

The Company recognises change on account of remeasurement of the net defined benefit liability as part of other comprehensive income with separate disclosure, which comprises of:

- actuarial gains and losses;
- return on plan assets, excluding amounts included in net interest on the net defined benefit liability; and
- any change in the effect of the asset ceiling excluding amounts included in net interest on the net defined benefit liability.

(ii). **Securities premium**

The amount received in excess of face value of the equity shares is recognised in Securities Premium. It can only be utilised for limited purposes in accordance with the provisions of the Companies Act, 2013.

25 Segment information

The Company is primarily engaged in the business of creating, developing, and providing differentiated renewable energy solutions to its industrial and commercial clients, with a focus on solar, wind, and hybrid installations. The main business segment encompasses the design, installation, operation, and asset management of these renewable energy systems, as well as energy sourcing and power trading solutions. Accordingly, the company is a single reportable business segment company in the renewable energy sector. Furthermore, its operations are currently based in India, meaning it has only one reportable geographical segment, which is the Indian segment.

Fair value hierarchy

Level 1: It includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. The fair value of financial assets and liabilities included in Level 3 is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes of similar instruments.

The carrying amounts of cash and cash equivalents and other financial assets and liabilities, approximates the fair values, due to their short-term nature. Fair value of financial assets and financial liabilities is similar to the carrying value as there is no significant differences between carrying value and fair value.

Valuation processes

The Management performs the valuations of financial assets and liabilities required for financial reporting purposes on a periodic basis, including level 3 fair values.

b). Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Currency Risk

(i). Credit risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the Balance Sheet

Particulars

Trade receivables
Cash and cash equivalents
Bank balances other than cash and cash equivalents
Other financial assets

Total	
As on March 31st 2026	As on March 31st 2025
0.38	-
0.15	1.00
-	-
-	-

→ Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers.

→ The Company's credit risk is primarily to the amount due from customers and loans. The Company maintains a defined credit policy and monitors the exposures to these credit risks on an ongoing basis. Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with scheduled commercial banks with high credit ratings assigned by domestic credit rating agencies.

→ The maximum exposure to the credit risk at the reporting date is primarily from trade receivables. Trade receivables are unsecured and are derived from revenue earned from customers primarily located in India. The Company does monitor the economic environment in which it operates and the Company manages its Credit risk through credit approvals, establishing credit limits and continuously monitoring credit worthiness of customers to which the Company grants credit terms in the normal course of business.

→ On adoption of Ind AS 109, the Company uses expected credit loss model to assess the impairment loss or gain. The Company establishes an allowance for impairment that represents its expected credit losses in respect of trade receivable. The management uses a simplified approach (i.e. based on lifetime ECL) for the purpose of impairment loss allowance, the Company estimates amounts based on the business environment in which the Company operates, and management considers that the trade receivables are in default (credit impaired) when counter party fails to make payments as per terms of sale/service agreements. However the Company based upon historical experience determine an impairment allowance for loss on receivables.

...Continued on next page

...Continued from previous page

→ When a trade receivable is credit impaired, it is written off against trade receivables and the amount of the loss is recognised in the income statement. Subsequent recoveries of amounts previously written off are credited to the income statement.

→ The gross carrying amount of trade receivables is disclosed in Note 15

→ The Company believes that the unimpaired amounts that are past due by more than 30 days are still collectible in full, based on historical payment behaviour.

The Company's exposure to credit risk for trade receivables are as follows:

Particulars	Total For the Year ended March 31st 2026	Total As on March 31st 2025

-	-
-	-
-	-

b. Currency risk

Currency risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company is exposed to the effects of fluctuation in the prevailing foreign currency exchange rates on its financial position and cash flows to the extent of earnings and expenses in foreign currencies. Exposure arises primarily due to exchange rate fluctuations between the functional currency and other currencies from the Company's operating, investing and financing activities.

Exposure to foreign currency risk

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities which are not hedged at the end of the reporting period are as follows:

Particulars	Denomination	As at March 31, 2026	
		Foreign currency	Equivalent ₹
Payables			
Trade payables	USD	-	-
Unhedged payables/(Receivables)			
Net unhedged foreign currency exposure	USD	0.00	0.00

Foreign currency sensitivity analysis

The following table details the Company's sensitivity to a 50 bps increase and decrease in the INR (₹) against USD. 50 bps is the sensitivity rate used when reporting

USD	Profit or loss		Equity, net of tax	
	50 bps increase	50 bps decrease	50 bps increase	50 bps decrease
For the year ended March 31, 2026	-	-	-	-

USD: United States Dollar

(ii). Liquidity risk

- Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are fallen due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.
- Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of credit facilities to meet obligations when due. The Company's policy is to regularly monitor its liquidity requirements to ensure that it maintains sufficient reserves of cash and funding from Company companies to meet its liquidity requirements in the short and long term.
- The Company's liquidity management process as monitored by management, includes the following:
- Day to Day funding, managed by monitoring future cash flows to ensure that requirements can be met.
 - Maintaining rolling forecasts of the Company's liquidity position on the basis of expected cash flows.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date:

As on March 31st 2026	Carrying amount	Total			
		Contractual cash flows			Total
		Less than one year	Between one to five years	More than five years	
Borrowings	11.91	11.91	-	-	11.91

Trade payables	2.01	2.01	-	-	2.01
Other financial liabilities	-	-	-	-	-
Total	49.06	13.92	14.35	20.78	49.06

As on March 31st 2025	Carrying amount	Total			
		Contractual cash flows			Total
		Less than one year	Between one to five years	More than five years	
Borrowings	-	-	-	-	-
Lease liabilities	-	-	-	-	-
Trade payables	1.62	1.62	-	-	1.62
Other financial liabilities	-	-	-	-	-
Total	1.62	1.62	-	-	1.62

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, the Company mainly has exposure to two types of market risk namely: currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

a. Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company to cash flow interest rate risk.

Exposure to interest rate risk

The Company's interest rate risk arises majorly from the term loans from banks carrying floating rate of interest. These obligations exposes the Company to cash flow interest rate risk. The exposure of the Company's borrowing to interest rate changes as reported to the management at the end of the reporting period are as follows:

Variable-rate instruments

Loan from holding Company
Vehicle loans from banks
Cash credits from banks
Bills discounted under LC
Bills discounted under TReDS
Total

Total As on March 31st 2026	Total As on March 31st 2025

-	-
-	-
-	-
11.87	-

Cash flow sensitivity analysis for variable-rate instruments

→ The sensitivity analyses below have been determined based on the exposure to interest rates at the end of the reporting period.

→ For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

Total	Profit or loss	Equity, net of tax

27 Capital management

- For the purpose of the Company's capital management, capital includes issued equity share capital and all other equity reserves attributable to the equity holders
- Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.
- To maintain or adjust the capital structure, the Company may return capital to shareholders, raise new debt or issue new shares.
- The Company monitors capital on the basis of the debt to capital ratio, which is calculated as interest-bearing debts divided by total capital (equity attributable to owners of the parent plus interest-bearing debts).

Notes to the Financial statements as at March 31, 2026

(All amount are in Lakhs, unless otherwise stated)

30 First time adoption of Ind AS

→ The Company has prepared its first Financial Statements in accordance with Ind AS for the year ended March 31, 2026. For periods up to and including the year ended March 31, 2025, the Company prepared its financial statements in accordance with Indian GAAP, including accounting standards notified under the Companies (Accounting Standards) Rules, 2014 (as amended) ("previous GAAP"). The effective date for Company's Ind AS Opening Balance Sheet is April 01, 2024 (the date of transition to Ind AS).

→ The accounting policies set out in Note 1 & 2 have been applied in preparing the financial statements for the year ended March 31, 2026, the comparative information presented in these financial statements for the year ended March 31, 2025 and in the preparation of an opening Ind AS Balance Sheet at April 1, 2024 (the Company's date of transition). According to Ind AS 101, the first Ind AS Financial Statements must use recognition and measurement principles that are based on standards and interpretations that are effective at March 31, 2026, the date of first-time preparation of Financial Statements according to Ind AS. These accounting principles and measurement principles must be applied retrospectively to the date of transition to Ind AS and for all periods presented within the first Ind AS Financial Statements.

→ Any resulting differences between carrying amounts of assets and liabilities according to Ind AS 101 as of April 1, 2024 compared with those presented in the Indian GAAP Balance Sheet as of 31st March, 2024, were recognized in equity under retained earnings (or, if appropriate, another category of equity) within the Ind AS Balance Sheet.

→ An explanation of how the transition from previous GAAP to Ind AS has affected the company's financial position, financial performance and cash flows is set out in the following tables and notes:

A. Exceptions and exemptions availed

In the Ind AS Opening Balance Sheet as at April 1, 2024, the carrying amounts of assets and liabilities from the Indian GAAP as at 31 March 2024 are generally recognized and measured according to Ind AS in effect as on March 31, 2025. For certain individual cases, however, Ind AS 101 provides for mandatory exceptions and optional exemptions to the general principles of retrospective application of Ind AS. The Company has used the following exceptions and exemptions in preparing its Ind AS Opening Balance Sheet:

A.1 Ind AS mandatory exceptions

(i) Estimates

An entity's estimates in accordance with Ind AS at the date of transition to Ind AS shall be consistent with estimates made for the same date in accordance with previous GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error. Ind AS estimates as at April 1, 2024 are consistent with the estimates as at the same date made in conformity with previous GAAP. The Company made estimates for impairment of financial assets based on expected credit loss model in accordance with Ind AS at the date of transition as these were not required under previous GAAP.

(ii) Classification and measurement of financial assets & financial Liability

→ Ind AS 101 requires the company to assess classification of financial assets & financial Liability on the basis of facts and circumstances existing as at the date of transition. Further, the standard permits measurement of financial assets accounted on amortised cost basis on fact and circumstances existing as at the date of transition, if prospectively application is impracticable.

→ Accordingly, the Company has determined the classification of financial assets & financial Liability on the basis of facts and circumstances existing as at the date of transition. Measurement of financial assets & financial Liability has been done prospectively except where the same is impracticable.

(iii) Derecognition of financial assets and liabilities

As per Ind AS 101 an entity should apply derecognition requirements in Ind AS 109 prospectively for transaction occurring on or after the date of transition to Ind AS.

(iv) Impairment of financial assets

The Company has applied exception related to impairment of financial assets given in Ind AS 101. It has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial assets were initially recognised and compared that to the credit risk at April 1, 2022.

A.2 Ind AS optional exemptions

(i) Deemed cost

Ind AS 101 permits a first-time adopter to elect to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption can also be used for intangible assets covered by Ind AS 38 Intangible Assets and investment property covered by Ind AS 40 Investment Properties.

Accordingly, the Company has elected to measure all of its property, plant and equipment and intangible assets at their previous GAAP carrying value.

(ii) Leases

Para 9 of Ind AS 116 requires an entity to assess whether a contract or arrangement contains a lease at the inception of the contract or arrangement. A first-time adopter may assess whether a contract existing at the date of transition to Ind AS contains a lease by applying Ind AS 116 to those contracts on the basis of facts and circumstances existing at that date.

The Company has measured the right-of-use asset at the date of transition at its carrying amount as if Ind AS 116 had been applied with a modified retrospective approach for assessing the commencement date of the lease and the lease liability is measured at present value of the remaining lease payments since the date of commencement.

(iii) Investments

Ind AS 101 permits a first-time adopter to measure investments in subsidiaries, joint ventures and associates at either cost determined in accordance with Ind AS 27 or deemed cost in its opening Ind AS Balance Sheet. The deemed cost of such an investment shall be its fair value at the entity's date of transition to Ind AS in its standalone financial statements or previous GAAP carrying amount at that date. In case of Investments in Mutual Funds the company elected to opt the same at Fair Value

Accordingly, the Company has elected to measure all of its investments in Mutual Funds at Fair Value.

Ind AS 101 requires an entity to reconcile equity, total comprehensive income for prior periods. The following tables represent the reconciliation from previous GAAP to Ind AS.
